Plant Cell, Tissue and Organ Culture **30:** 255–256, 1992

CONTENTS Volume 30 1992

Volume 30 No. 1

Agarwal B., Singh U. & Banerjee M.: *In vitro* clonal propagation of tea (*Camellia sinensis* (L.) O. Kuntze) 1
Nuutila A.M. & Kauppinen V.: Nutrient uptake and growth of an embryrogenic and a non-embryogenic cell line of birch (*Betula pendula* Roth.) in suspension culture 7
Dalton S.J. & Thomas I.D.: A statistical comparison of various factors on embryogenic proliferation, morphogenesis and regeneration in *Lolium temulentum* cell suspension colonies 15
Finch R.P., Baset A., Slamet I.H. & Cocking E.C.: *In vitro* shoot culture of wild *Oryzae* and other grass species 31
Van Eck J.M. & Kitto S.L.: Regeneration of peppermint and orange mint from leaf disks 41
Ghashghaie J., Brenckmann F. & Saugier B.: Water relations and growth of rose plants cultured *in vitro* under various relative humidities 51
Kiss J., Heszky L.E., Kiss E. & Gyulai G.: High efficiency adventive embryogenesis on somatic embryos of anther, filament and immature proembryo origin in horse-chestnut (*Aesculus hippocastanum* L.) tissue culture 59
Rossetto M., Dixon K.W., Mency K.A. & Bunn E.: *In vitro* propagation of Chinese Puzzle (*Caustis dioica* Cyperaceae) – a commercial sedge species from Western Australia 65
Manders G., dos Santos A.V.P., d'Utra Vaz F.B., Davey M.R. & Power J.B.: Transient gene expression in electroporated protoplasts of *Eucalyptus citriodora* Hook 69
Zhou H., Ball S.T. & Konzak C.F.: Functional properties of ficoll and their influence on anther culture responses of wheat 77

Volume 30 No. 2

Horn M.E., Martin B.A. & Widholm J.M.: Photoautotrophic growth of soybean cells in suspension culture. II. Optimization of culture medium and conditions 85
Chavez V.M., Litz R.E. & Norstog K.: *In vitro* morphogenesis of *Ceratozamia hildae* and *C. mexicana* from megagametophytes and zygotic embryos 93
Chavez V.M., Litz R.E. & Norstog K.: Somatic embryogenesis and organogenesis in *Zamia fischeri Z. furfuracea* and *Z. pumila* 99
Ronchi V.N., Giorgetti L., Tonelli M. & Martini G.: Ploidy reduction and genome segregation in cultured carrot cell lines. I. Prophase chromosome reduction 107
Ronchi V.N., Giorgetti L., Tonelli M. & Martini G.: Ploidy reduction and genome segregation in cultured carrot cell lines. II. Somatic meiosis 115
Sallanon H. & Maziere Y.: Influence of growth room and vessel humidity on the *in vitro* development of rose plants 121
Nyman M. & Wallin A.: Improved culture technique for strawberry (*Fragaria* × *ananassa* Duch) protoplasts and the determination of DNA content in protoplast derived plants 127
Debergh P., Aitken-Christie J., Cohen D., Grout B., von Arnold S., Zimmerman R. & Ziv M.: Reconsideration of the term 'vitrification' as used in micropropagation 135
Puonti-Kaerlas J., Ottosson A. & Eriksson T.: Survival and growth of pea protoplasts after transformation by electroporation 141
van Wordragen M.F., Ouwerkerk P.B.F. & Dons H.J.M.: *Agrobacterium rhizogenes* mediated induction of apparently untransformed roots and callus in chrysanthemum 149
Langezaal C.R. & Scheffer J.J.C.: Initiation and growth characterization of some hop cell suspension cultures 159

Volume 30 No. 3

Čellárová E., Rychlová M. & Vranová E.: Histological characterization of *in vitro* regenerated structures of *Panax ginseng* 165
Leifert C., Pryce S., Lumsden P.J. & Waites W.M.: Effect of medium acidity on growth and rooting of different plant species growing *in vitro* 171
van der Valk P., Scholten O.E., Verstappen F., Jansen R.C. & Dons J.J.M.: High frequency somatic embryogenesis and plant regeneration from zygotic embryo-derived callus cultures of three *Allium* species 181
Priyadarshi S. & Sen S.: A revised scheme for mass propagation of Easter Lily 193
Véronneau H., Lavoie G. & Cappadocia M.: Genetic analysis of anther and leaf disc culture in two clones of *Solanum chacoense* Bitt. and their reciprocal hybrids 199
Tiainen T.: The influence of culture conditions on anther culture response of commercial varieties of *Solanum tuberosum* L. 211
Goldsworthy A. & Lago A.: Electrical control of differentiation in callus natural electric potentials 221
Chow Y.N., Selby C. & Harvey B.M.R.: A simple method for maintaining high multiplication of *Narcissus* shoot cultures *in vitro* 227
Ramírez M., Alpizar L., Quiróz J. & Oropeza C.: Formation of L-canavanine in *in vitro* cultures of *Canavalia ensiformis* (L.) DC. 231
Iapichino G., McCulloch S. & Chen T.H.H.: Adventitious shoot formation from leaf explants of *Rhododendron* 237
Ronse A.C. & De Proft M.P.: *In vitro* propagation of *Otacanthus coeruleus* Lind. 243
Mercer H. & Kerbauy G.B.: *In vitro* multiplication of *Vriesea fosteriana* 247
